

## **Aerothlon is back in Wagrain-Kleinarl on August 21st 2021**

The excellent cooperation with Wagrain-Kleinarl Tourismus played a decisive role in the successful Austrian premiere of the Aerothlon last year. Therefore we are very pleased that it is now official: This world-wide unique mountain triathlon event for speedhiking, paragliding and mountain biking will once again find the best conditions for an exciting competition in Wagrain-Kleinarl.

Whoever takes part wins! In particular, the Aerothlon offers recreational athletes with its rating system a unique sporting experience: You can register for one, two or all three sports mentioned, play all three sports alone or as a team. The Aerothlon in Wagrain-Kleinarl on 21.08.2021 awaits the participants challenging 1000 vertical meters of speedhiking on the Mooskopf, thermal paragliding and a 17 km long mountain bike route.

Red Bull X-Alps competitor Paul Guschlbauer will be there again, who will try to defend his victory in the solo discipline last year. In addition to the international field of participants from the DACH region, the young teams from the region will try to take advantage of the home advantage in the Trio Team Championship and thus take the day's victory.

In addition to the action-packed competition at the Kleinarl sports field, the spectators and fans of the individual participants will be provided with a varied supporting programme starting at 9:00 am.

The race starts at 10:00 am and via live tracking the athletes can also be followed.

Registration for the competition is possible directly on the website [www.aerothlon.com](http://www.aerothlon.com). Here you will find a lot of further information about the event.
